BECOME AN AIR AMBASSADOR

JOIN THE AIR-FAIR

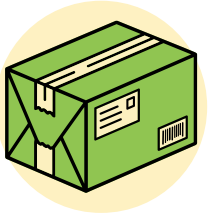
APPLY FOR THE AIR-FAIR BY OCT 1

DEQ is hosting an **AIR-FAIR**, a statewide pilot program where Idaho high school students become **citizen scientists** by investigating the **air quality** in their communities.

HOW IT WORKS

APPLY FOR THE PILOT PROGRAM

Idaho high schools are encouraged to have multiple teams of 4-8 students apply.



WE SUPPLY THE TOOLS

Selected schools will receive PurpleAir sensors provided by DEQ to collect real-time air quality data on campus.

YOU INVESTIGATE AND CREATE

Students will work in teams to analyze the data and complete creative challenges, including scientific research, artwork, videos, and community outreach projects.

EARN POINTS AND COMPETE

Awards will be granted for "Best Research Project", "Best Art Project", and for the top three teams who score the highest number of points.

For more information on how to apply, go to the AIR-FAIR website page by scanning the QR code below.
