

**Idaho Department of Environmental Quality**  
**Crop Residue Burning**  
**Permit-by-Rule**  
**Registration Receipt And Initial Permit**  
**Requirements**  
**10/1/2013**

---

**THIS IS NOT AN APPROVAL TO BURN.** This document lists those fields that have met the registration requirement, as well as providing certain requirements for burning those fields when specifically approved by DEQ. The permit requirements and general terms and conditions below apply to all open burning of crop residue and must be complied with. Additional requirements may be added on the final approval to burn.

---

**Registrant Information**

Name: Wight, Glen Joseph  
Mailing Address: 685 HWY 34  
City/State/Zip: GRACE, ID 83241  
Registration Number: CRB2013-654

**Permit Requirements**  
**Apply to All Burning of Crop Residue**

1. **Public Roadway Safety** - The permittee is responsible to ensure that adequate measures are taken such that the burn does not create a hazard for travel on a public roadway. (per IDAPA 58.01.01.621.02.c)
2. **Fire Safety Measures** - The permittee shall prevent their burn from escaping their control. (per IDAPA 58.01.01.619.05)
3. **Protection of Institutions with Sensitive Populations** - Burning is not allowed if smoke is adversely impacting or is expected to adversely impact an institution with sensitive population. (per IDAPA 58.01.01.621.01.f)

**GENERAL TERMS AND CONDITIONS**

1. Burning of crop residue shall not be conducted on weekends, federal or state holidays, or after sunset or before sunrise. (IDAPA 58.01.01.622.01.a)
2. Burning of crop residue shall not be conducted unless the Department has designated that day a burn day and the permittee has received individual approval specifying conditions under which a burn may be conducted. (IDAPA 58.01.01.622.01.b)
3. Burning of crop residue shall be conducted in the field in which it was generated. (IDAPA 58.01.01.622.01.d)  
Note: Open burning of crop residue, defined as vegetative material remaining in the field after harvest or vegetative material produced on designated conservation reserve program (CRP) lands, to develop physiological conditions conducive to increase crop yields, control diseases, insects, pests or weed infestations is an allowable form of open burning in accordance with Idaho Code §39-114.
4. The person conducting the burn must have on their possession a portable form of communication such as a cellular phone or radio of compatible frequency with the Department in order to receive burn approval information or information that might require measures to withhold additional material such that the fire burns down. (IDAPA 58.01.01.622.01.c)
5. When required by the conditions of the notice of approval to burn, the permittee burning in proximity to an institution with a sensitive population shall immediately extinguish the fire or withhold additional material

such that the fire burns down, unless the Department determines that the burn will not have an adverse impact on such institutions. (IDAPA 58.01.01.622.01.e)

6. All crop residue burning shall be prohibited when the Department issues an air quality forecast and caution, alert, warning or emergency as identified in Section 552 of the Rules for the Control of Air Pollution in Idaho. (IDAPA 58.01.01.622.01.g)
7. All persons intending to burn crop residue shall obtain any additional applicable permits from federal, state or local fire control authorities prior to receiving approval from the Department to burn crop residue. It shall be the responsibility of the applicant to obtain all applicable permits. Failure to obtain all permits will be considered a violation of this condition. (IDAPA 58.01.01.622.01.i)
8. The use of re-burn machines, propane flamers, or other portable devices to ignite a field for the purposes of crop residue burning shall be considered an allowable form of open burning. Tires and other restricted material described in Subsection 603.01 of the Rules for the Control of Air Pollution in Idaho are not allowed for ignition of fields. (IDAPA 58.01.01.622.01.h)
9. All persons burning crop residue shall report to the Department the information required in the post burn report included in this registration within 24 hours of completing the burn. The Department may restrict further burning by a permittee until such reports are received. (IDAPA 58.01.01.622.01.j)
10. A re-burn conducted to complete crop residue burning shall be considered a new burn and will need approval from DEQ prior to burning. (IDAPA 58.01.01.618.01)

<b>Registered Field</b>	
Field Name:	Airport Field
Field Location:	Latitude: 42.72026 Longitude: -111.842963
County:	CARIBOU
Smoke Management Area:	Southeast Idaho
Acres Eligible:	160
Person Conducting Burn:	Wight, Glen Joseph
Initial Burn Requirements - Specific to This Field	
<p>Cannot burn if the sustained surface wind speed exceeds 12 mph at any time during the burn, while school is in session</p> <p>Cannot burn if sustained surface winds are from the East, while school is in session.</p>	
 <p>The map displays a satellite view of a rural area. A large red circle is centered on a field, representing a 3-mile radius. Three colored pins are placed on the map: a yellow pin (school) labeled 'Barnett', an orange pin (institution with sensitive populations), and a green pin (field location). A red pin (hospital) is also visible to the left of the field. The map includes the Google logo and copyright information for 2013.</p>
