# CMDP

## Your Quick Guide to Successful Submissions

### Submission journey begins at the login screen

The gateway to a clean submission.

**Log in at the right spot:**
Go to 👉 https://cmdp.epa.gov
Use your EPA CDX credentials

🧠 **Memory Fails? Don't Panic — Reset It!**
Go to 👉 https://encromerr.epa.gov

### Submit like a Pro: Check before you Go!

Everything you need for clean, confident uploads.

🎯 **CMDP is All About That Match!**
Just one wrong character can cause a full file failure. CMDP needs an exact match.

🧪 **Double Check Your Codes, Avoid Upload Woes!** Use EPA-approved analyte codes only—guessing won't cut it!

⏰ **Date It, Don't Debate It!**
Collection dates can't be blank or in the future. Get it right before you upload!

🧹 **Clean Files = Smooth Smiles**
Start fresh with valid XML and correct data. Happy uploads, happy labs!

🪪 **ID Check—Because Typos Don't Fly!**
Lab, Facility, and Sample IDs must be exact. Even a small typo can derail your submission.

🎶 **It's All About That Tag—'Bout That Tag,**
If it's not XML, it's not happening. Don't let the wrong file format block your submission.

### 🧠 When in Doubt, Reach Out!

CMDP questions? We've got answers.
