RE: Facility No. 777-00572, Suncore Construction & Materials, Inc.
PR-2017.0029, Project 63903
Nonmetallic Mineral Processing Plant Permit by Rule (PBR) Registration

Dear Brent Turpin:

The Department of Environmental Quality (DEQ) is issuing a PBR Registration for a portable Nonmetallic Mineral Processing Plant for Suncore Construction & Materials, Inc. The registration is for the following equipment:

Rock Crushers and Grinding Mills[1]

Crusher Classification	Type	Manufacturer	Serial No. / Equipment ID No.	Date of Manufacture	Capacity (T/hr)[2]
Primary	Jaw	Fabtech-Lippman	PC-30-48-400-16/76-4525	2016	600
Primary	Impactor	KPI-JCI	76-4507	2014	500
Primary	Cone	KPI-JCI	P161865	2016	500
Secondary	Cone	KPI-JCI	P171930/76-4506	2017	500
Secondary	Cone	Nordberg	HP400381/76-4522	1998	500
Secondary	Cone	Cedarapids	PT-6-20-3-305-06/76-4511	2002	500
Secondary	Cone	Astec	P242240/76-4537	2024	500

[1] Per 40 CFR 60.671, Capacity means the cumulative rated capacity of all initial crushers that are part of the plant. Initial crusher means any crusher into which nonmetallic minerals can be fed without prior crushing in the plant.

[2] T/hr = tons per hour

Screen Decks

Manufacturer	Physical Size (feet x feet)	No. of Decks	Serial No. / Equipment ID No.	Date of Manufacture
Cedarapids	20 x 6	6	PT-6-20-3-305-06/77-4067	2006
Cedarapids	20 x 6	3	43J0493/77-4066	1993
JCI	20 x 6	3	P620317698/77-4071	1998
Astec	18 x 6	2	133813/77-4037	2013
JCI	20 x 7	3	A22081A1C009/77-4079	2022
Powerscreen Chieftain	11 x 5	2	77-4068	2006
JCI	7 x 20	3	S051555/77-4083	2005

Electrical Generators

Manufacturer	Rated Output (kW)	Fuel Type
Caterpillar	1135	Grade 2
Caterpillar	800	Grade 2
Caterpillar	450	Grade 2
Caterpillar	1500	Grade 2

This Permit by Rule registration is effective immediately, and replaces Permit by Rule registration PR-2017.0029, Project 63788 issued on May 12, 2026. We recommend that you maintain a copy of this letter at all sites where the registered equipment is operated or stored.

A description of the portable rock crusher PBR program and links to PBR guidance and forms for registration, relocation, and operations monitoring are provided on DEQ's website at http://www.deq.idaho.gov.

Please be advised the equipment operation, monitoring, and recordkeeping for this portable rock crushing equipment must comply at all times with the Rules for the Control of Nonmetallic Mineral Processing Plants in accordance with IDAPA 58.01.01.790 through 802 and the applicable portions of 40 CFR 60 Subpart OOO - Standards of Performance for Nonmetallic Mineral Processing Plants. A copy of IDAPA 58.01.01.790 through 802 is attached.

You must be in compliance with the applicable portions of 40 CFR 60 Subpart OOO, including the requirement to conduct opacity testing on any new, modified, or reconstructed equipment within 60 days after achieving the maximum production rate at which the affected facility will be operated, but not later than 180 days after initial startup. The text for 40 CFR 60 Subpart OOO may be viewed at www.ecfr.gov (browse to Title 40, Part 60.670 - 676).

In order to fully understand the compliance requirements of this Permit by Rule and the requirements of 40 CFR 60 Subpart OOO, DEQ highly recommends that you schedule a meeting with Melissa Gibbs**,** Regional Air Quality Manager, at (208) 236-6160 to review and discuss the terms and conditions of this Permit by Rule. Should you choose to schedule this meeting, DEQ recommends the following representatives attend the meeting: your facility's plant manager, responsible official, environmental contact, and any other staff responsible for day-to-day compliance with permit conditions.

Other Air Quality Requirements

You are required to submit a rock crusher portable equipment relocation form (RCPERF) showing the initial location of the facility and an additional form each time equipment is moved to a new site of operations or into storage. DEQ requires that this form be submitted at least ten days prior to relocating the equipment. An electronic copy of the form is available on DEQ's website, under Air – Compliance Assistance – Forms/Checklists. A copy of the form is enclosed for your convenience. You are also required to log the hours of operation for any electrical generator used, log all fugitive dust complaints, and log all triggers that initiate fugitive dust control. A copy of each of those forms is also enclosed. If you have questions regarding this

Permit by Rule process, please contact Annabelle Young (208) 373-0502 or annabelle.young@deq.idaho.gov.

Sincerely,

Aaron Hoberg, PE
Air Quality Permitting Supervisor
