This registration for Permit by Rule is effective immediately and replaces PBR PR-2006.0432, issued July 19, 2006. We recommend that you maintain a copy of this letter and a copy of the enclosed registration form for your records.

Please be advised that you must comply with Section 764 of the Rules for the Control of Ammonia from Dairy Farms by employing the requisite point total of BMPs. These Rules are located within the Rules for the Control of Air Pollution in Idaho. You can download a copy of the rules by visiting the rules page on DEQ's web site at http://www.deq.idaho.gov.

Please be advised that the Idaho Department of Agriculture intends to conduct a qualifying inspection of your dairy farm to ensure the requisite point total of BMPs are employed.

If you have any questions regarding this letter or the Rules for the Control of Ammonia from Dairy Farms, please do not hesitate to contact me at (208) 373-0502. Questions regarding inspections should be directed to Mitchell Vermeer, Dairy Bureau Chief, Idaho State Department of Agriculture, at (208) 332-8551.
