Re: Approval of the Mid Snake River/Succor Creek Tributaries TMDLs, 2013 Addendum  
(HUC: ID17050103)

Dear Mr. Burnell:

The Idaho Department of Environmental Quality (IDEQ) submitted the Mid Snake River/Succor Creek Tributaries Total Maximum Daily Loads (TMDLs), dated October 9, 2013, to the U.S. Environmental Protection Agency (EPA) on October 11, 2013. Following our review, the EPA is pleased to approve seven TMDLs for the waters and pollutants listed in the table below.

<table>
<thead>
<tr>
<th>Waterbodies Addressed by the TMDLs</th>
<th>Assessment Unit #</th>
<th>Pollutant</th>
</tr>
</thead>
<tbody>
<tr>
<td>Birch Creek—upstream of Castle Creek Road to Snake</td>
<td>ID17050103SW021_03</td>
<td>Total Suspended Solids (TSS)</td>
</tr>
<tr>
<td>Hardtrigger Creek—headwaters to Snake River</td>
<td>ID17050103SW021_04</td>
<td>Sediment (bank stability)</td>
</tr>
<tr>
<td>McBride Creek—headwaters to Oregon line</td>
<td>ID17050103SW008_02 (lower)</td>
<td>Sediment (bank stability)</td>
</tr>
<tr>
<td></td>
<td>ID17050103SW004_03 (upper)</td>
<td>Sediment (bank stability)</td>
</tr>
<tr>
<td>Pickett Creek—Bates Creek confluence to Browns Creek confluence</td>
<td>ID17050103SW016_03</td>
<td>Sediment (bank stability)</td>
</tr>
<tr>
<td>Vinson Wash—Poison Creek confluence to mouth*</td>
<td>ID17050103SW023_03</td>
<td>Total Suspended Solids (TSS)</td>
</tr>
</tbody>
</table>

* This waterbody is on Idaho’s 2010 303d List as impaired for Combined Biota/Habitat Bioassessments which has been linked to a sediment impairment.

Our review indicates that these allocations have been established at a level that, when fully implemented, will lead to the attainment of the water quality standards addressed by these TMDLs. Therefore, the IDEQ does not need to include these waters on the next 303(d) list of impaired waters for the pollutant(s) covered by these TMDLs.

This approval only includes those waters for which a TMDL was completed and does not constitute approval for the proposed de-listing of waters within Hydrologic Unit Code
ID17050103 from the Idaho §303(d) list. Any proposed de-listing of waters will be considered at the time of submission of the next §303(d) list of impaired waters.

This submittal also includes implementation strategies for the TMDLs. The IDEQ developed and submitted these strategies pursuant to the TMDL Settlement Agreement of July 2002. The EPA has no duty to approve or disapprove implementation strategies under Section 303(d) of the Clean Water Act (CWA); therefore, the EPA is not taking action on these strategies. Implementation is the critical next step to realize improvements in water quality, and we encourage IDEQ to continue their work with responsible parties on implementation of these strategies.

We would like to recognize Mr. Troy Smith’s hard work and cooperation in bringing these TMDLs to completion.

By the EPA’s approval, these TMDLs are now incorporated into the State’s Water Quality Management Plan under §303(e) of the CWA. If you have any comments or questions, please feel free to call me at (206) 553-1855, or your staff may call Jayne Carlin of my staff at (206) 553-8512.

Sincerely,

Daniel D. Opalski, Director  
Office of Water and Watersheds
