

# DEQ in the Classroom:

## P2 Bingo

IDAHO  
DEPARTMENT OF  
ENVIRONMENTAL  
QUALITY

1410 North Hilton  
Boise, ID 83706  
208/373-0502

[www.deq.idaho.gov](http://www.deq.idaho.gov)

### Grade Level:

3 – 12

### Time Required:

15 - 20 minutes minimum; “blackout” could take up to an hour.

### Objective:

To reinforce good environmental practices. This game is not intended to stand alone as an activity, but to be used as a supplement to other activities. It is handy to have on hand to use if a main activity takes less time than expected and you need something else to fill a time slot.

### Focus:

Multimedia: good environmental practices. The pollution prevention practices used in the game cover all environmental media: air, water, and waste.

### Materials:

Bingo sheets (25 are attached)

Master list (attached)

Beans (or similar) to mark sheets (need 20 per student)

### Background:

There are many good things we can do every day to eliminate and reduce pollution/waste and reuse and recycle resources. All of these help to protect Idaho’s environment.

### Vocabulary:

#### Compost

A mixture of decaying vegetation and manure; used as a fertilizer. To convert vegetation, etc. (grass, kitchen scraps) to compost.

#### Eliminate

To take out. In this context, refers to not creating or using something in the first place (e.g., not turning on the lights).

#### Pollution Prevention (P2)

Practices that reduce or eliminate the creation of pollutants or waste through increased efficiency in the use of resources. P2 goes beyond recycling and reusing and involves using resources efficiently to not create waste in the first place.

#### Recycle

Transforming waste materials into useable resources.

#### Reduce

Using less so that less waste or pollution is generated (e.g., turning off the lights when you leave the room).

#### Reuse

Using something again to avoid generating the waste that is created by throwing something away and replacing it with something new.

## Procedure:

**Ahead of time:** Print out one bingo sheet for each student (25 attached). Print out two copies of the master list. Cut the squares out of one master list and put them in a box (or something) for you to draw from. Do *not* put the four shaded heading squares (“eliminate,” “reduce,” etc.) in the box. Save the other copy of the master list (uncut) for Step 1. Print all pages single sided.

*Some of the items on the squares have a short explanation as to why something is good to do. If an explanation appears on the master list in italics and smaller print, it is not on the students’ sheets, but serves to help you during the discussion. In all other instances, the text on the master sheets and students’ sheets are identical.*

**Step 1.** Play bingo (or “blackout”). Pick slips of paper (squares) from the box one at a time and call out what they say. Place each slip of paper as you draw it on its spot on the uncut master list (this will help you in Step 2 when you verify a student has won). If students have the item on their sheets, they mark the square with a bean. The first person with one row of items covered (vertical or horizontal) calls out “Bingo!” (To play “blackout,” play until someone has all squares covered.) *Because the sheets are 4 columns x 5 rows, students cannot get a bingo diagonally.*

**Step 2.** Once someone has won, have him or her repeat to you what squares they covered. Verify you did call those items. For each, ask the class (or the student who won) why that action is good. If they don’t know, explain. There are some explanations on the master list to help you.

**P2 Bingo Master List, Page 1**

<b>Eliminate</b>	<b>Reduce</b>	<b>Reuse</b>	<b>Recycle</b>
<b>Don't burn garbage</b> <i>(burning causes air pollution)</i>	<b>Take short showers</b>	<b>Make gift tags from old greeting cards</b>	<b>Aluminum cans</b>
<b>Sweep sidewalks and driveways – don't hose off</b> <i>(hosing off wastes water)</i>	<b>Don't leave the water on when brushing teeth</b>	<b>Use bows for decorating gifts over again</b>	<b>Compost kitchen waste</b>
<b>Don't turn on the lights when you don't need them</b>	<b>Turn off the lights when you leave the room</b>	<b>Use gift bags over again</b>	<b>Compost lawn clippings</b>
<b>Wrap gifts without putting them in boxes</b>	<b>Use both sides of paper</b>	<b>Use the comics from newspapers to wrap gifts</b>	<b>Leave lawn clippings on the lawn</b>
<b>Ride a bike to school</b>	<b>Carpool</b>	<b>Eat leftovers</b>	<b>Plastic milk jugs</b>
<b>Walk to school</b>	<b>Turn off car engines when waiting at school</b>	<b>Use the back of "used" paper for scratch paper</b>	<b>Newspaper</b>
<b>Use cloth bags for groceries</b>	<b>Follow instructions when using cleaners and other chemicals</b> <i>(reduces air pollution from chemicals)</i>	<b>Give old toys to your kid brother</b>	<b>Glass</b>
<b>Ask to be removed from junk mail and catalogue mailing lists</b>	<b>Plant a tree</b>	<b>Donate old clothes to charity</b>	<b>Cardboard</b>
<b>Use a lunch box or cloth bag to carry your lunch</b>	<b>Combine trips in the car (go to the park and the store in one trip)</b>	<b>Bring grocery bags back again and again</b>	<b>Magazines (after you've shared them with friends)</b>

**P2 Bingo Master List, Page 2**

<b>Eliminate</b>	<b>Reduce</b>	<b>Reuse</b>	<b>Recycle</b>
Use washable cups instead of paper cups	Take the bus	Buy batteries that can be recharged (and recharge them!)	Computer paper (after used on both sides, of course!)
Email party invitations	Turn off faucets all the way – don't let them drip	Use containers food comes in (e.g., from yogurt) as storage containers	Used batteries that can't be recharged
Download songs instead of purchasing CDs (legally, of course!)	Only run the washer when it is full	Borrow books from the library	Toilet paper rolls
Don't use the air conditioner in the car – roll down your windows instead	Pick up litter	Use grocery bags to line garbage cans	
Don't turn on the air conditioner at home – open windows instead	Pick up after your pet <i>(keeps pet waste from getting into streams, etc.)</i>	Use old newspaper or shredded paper as "packing" for breakable gifts	
Buy in bulk	Never pour anything down a storm drain <i>(keeps chemicals, etc. out of streams, etc.)</i>	Share used magazines with friends	
Use cloth napkins instead of paper ones	Buy soda in 2-liter bottles instead of in cans	Buy things at garage sales	
		Sell things at garage sales
