

IPDES Permit Issuance Plan

Calendar Year 2021

State of Idaho
Department of Environmental Quality
November 2020

Idaho Permit Issuance Plan for Calendar Year 2021

The Idaho Department of Environmental Quality's (DEQ's) permit issuance plan for calendar year 2021 provides the regulated community, US Environmental Protection Agency (EPA), and other state, federal, tribal, and interested entities with information on permits being worked on by DEQ's Idaho Pollutant Discharge Elimination System (IPDES) Bureau. Permits are assigned to IPDES permit writers according to this list, barring special circumstances that may arise (e.g., New Source or Discharger submitting an application, applicant submitting a letter of application withdrawal or Notice of Intent to Terminate (NOT), or active total maximum daily load [TMDL] changes).

Individual facilities were rated based on the following criteria:

- Type of facility applying for a permit
- Length of time the facility has been waiting to be issued its first permit (number of months in pending status)
- Length of time before an existing permit expires
- Length of time the permit has been administratively continued
- Receiving water beneficial use status
- Facility compliance history
 - Number of significant noncompliance issues accrued during past permit cycle
 - Number of reporting noncompliance issues accrued during past permit cycle
- Facility classification as a major or a minor discharger
- Number of drinking water system intakes within 500 feet downstream of the facility's discharge point

Permit Issuance for Individual IPDES Permits

Authority for issuing Publicly Owned Treatment Works (POTW) permits was delegated to DEQ on July 1, 2018. Authority for issuing non-POTW permits was delegated to DEQ on July 1, 2019. Table 1 and Table 2 identify POTW and non-POTW permit draft statuses:

- Assigned—assigned to permit writers
- Development—actively being prepared
- Queue—in queue to be assigned and prepared
- On Hold—on hold due to specific circumstances (e.g., inactive discharge, etc.)

Some non-POTW permits process domestic wastewater and are issued permits that mirror POTW requirements using best professional judgement (BPJ). DEQ may assign these facilities to permit writers before other categories of non-POTW facilities due to the permit writers' experience addressing POTWs and the anticipated minimal number of pollutants of concern in wastewater.

Table 1. 2021 POTW permit development list.

IPDES ID	Facility/Operator	Permit Status	Score	Draft Status	Facility Type and Receiving Water [HUC]^{a,b}
ID0030040	MOYIE SPRINGS, CITY OF - MOYIE SPRINGS	Pending	10000	Assigned	Kootenai River [17010104] ^b

b. HUCs identified by the US Fish and Wildlife Service (FWS) that contain ESA-listed species or critical habitat.

Listing of Effective IPDES Individual Permits

Table 3 lists individual POTW permits, and Table 4 lists the individual non-POTW permits in Idaho that are “Effective.” Facilities are sorted by expiration date, which highlights those expected to compile and submit a renewal application in the coming months. This feature prompts the IPDES compliance officer to contact the facility and provide assistance with compiling and submitting a complete renewal application, and assists the IPDES permit supervisor with forecasting and scheduling work assignments for the IPDES permit writers. Permittees in the “Effective” status are contacted at least 12 months prior to the permit expiration date, reminding them to prepare and submit a renewal application if they wish to continue to discharging under an IPDES permit.

Table 3. Effective POTW permit list.

IPDES ID	Permit Name	Expiration Date	Receiving Water [HUC] ^{a,b}
ID0022055	LEWISTON, CITY OF - LEWISTON WWTP	1/31/2021	Lower Clearwater River [17060306] ^{a,b}

b. HUCs identified by the US Fish and Wildlife Service (FWS) that contain ESA-listed species or critical habitat.

General Permits and Storm Water Permits

Authority for issuing nonstorm water general permits was delegated to DEQ on July 1, 2020.

Authority for issuing storm water individual and general permits is scheduled to be delegated to DEQ on July 1, 2021. Table 5–Table 7 identify general permits storm water permit draft statuses:

- Assigned—assigned to permit writers
- Development—actively being prepared
- Queue—in queue to be assigned and prepared
- On Hold—on hold due to specific circumstances (e.g., inactive discharge, etc.).

DEQ’s plan to address these permits appears in the Comments column.

Table 5. 2021 Nonstorm water general permit development list.

NPDES ID	Permit Name	Permit Status	Expiration Date	Draft Status	Comments
IDG910000	General Permit for Ground Water Remediation Facilities in Idaho	Admin Continued	6/30/2012	On Hold	Covers Delamar & Atlanta Gold Mines
IDG911000	General Permit for Ground Water Remediation Facilities in Idaho	Admin Continued	9/14/2019	Development	Target permit issue date 4/26/2021
IDG010000	General Permit for Concentrated Animal Feeding Operations (CAFOs) in Idaho	Admin Continued	6/14/2025	On Hold	Under EPA's jurisdiction pending a challenge to the permit
IDG380000	General Permit for Idaho Drinking Water Facilities	Effective	10/31/2021	Development	Target permit issue date 10/1/2021
IDG131000	2019 General Permits for Aquaculture Facilities in Idaho (excluding facilities in the Upper Snake-Rock subbasin)	Effective	11/30/2024	On Hold	Permit will be developed prior to the permit expiration
IDG130000	2007 General Permit, Aquaculture Facilities in Idaho Subject to Wasteload Allocations Under Selected TMDLs	Admin Continued	11/30/2012	On Hold	Permit will be developed in conjunction with the new Snake-Rock Subbasin TMDL
IDG132000	2009 General Permit, Fish Processors Associated with Aquaculture Facilities in Idaho	Admin Continued	11/30/2012	On Hold	Permit will be developed in conjunction with the new Snake-Rock Subbasin TMDL
IDG87000S	Pesticide General Permit (PGP) for Discharges from the Application of Pesticides	Effective	10/31/2021	Assigned	Target permit issue date 9/30/2021
IDG370000	General Permit for Small Suction Dredge Placer Miners in Idaho	Effective	5/31/2023	On Hold	Permit will be developed prior to the permit expiration

Table 6. 2021 Storm water general permit list.

NPDES ID	Permit Name	Permit Status	Expiration Date	Draft Status	Comments
IDR050000	Storm water Discharges from Industrial Activities (MSGP)	Admin Continued	6/4/2020	On Hold	EPA intends to issue this permit before July 1, 2021
IDR100000	Construction General Permit (CGP)	Effective	2/16/2022	Assigned	Permit writer assigned

Table 7. 2021 Storm water individual permit development list.
