EPA-certified woodstove/insert            EPA-certified pellet stove            Gas/propane stove or insert

## III Photo and Residency Verification Documentation

### Existing Wood-Heating Appliance

- Current EPA certification tag (if present)
- Name plate with model information (if present)
- Front view of woodstove or insert (installed in home)
- Document used for residency verification

#### IV. Applicant Certification

By checking the boxes and signing below, I certify the following under the penalty of perjury:

My existing woodstove or pellet stove is currently located at the physical address provided above. It is operable and regularly used.

I understand that if my old woodstove is certified to comply with 2020 particulate emission standards, as indicated by the certification label on the unit, or I am replacing a pellet stove, I will not be eligible for the Alternative Energy Device Tax Deduction (Idaho Code § 63-3022C).

I understand that DEQ does not warranty any devices purchased under this program, including, but not limited to the quality, functionality, or satisfaction of the device. Any and all warranties are through the stove manufacturer and installer.

I understand that the new device must be installed by a DEQ-participating vendor and HVAC-licensed installer.

I understand that I may not keep or sell the old woodstove and the vendor will take the old woodstove to an approved recycling facility.

I understand that I will forfeit my rebate voucher if I do not purchase a new device prior to the expiration date listed on the voucher. **Vouchers are valid for 45 days.**

I will operate the replacement device according to the manufacturer's instructions.

I understand that proper wood-burning practices (e.g., burning only dry, natural wood that has been seasoned at least 6 months or commercially designed firelogs approved for woodstove use) and proper stove installation and operation are critical to the effectiveness of my new device.

I understand that providing false information on this application constitutes fraud and will include, but is not limited to, disqualification from participating in this program and from future change-out programs.

I understand that DEQ will be held harmless from any and all liability, claims, damages, costs, expenses, and actions, including reasonable attorney fees, caused by or that arise from the negligent or wrongful acts or omissions of the participating vendor, its employees, agents, or subcontractors under this agreement that cause death or injury or damage to property or arising out of a failure to comply with any state or federal statute, law, regulation, or act. Participant shall have no indemnification liability under this section for death, injury, or damage arising solely out of the negligence or misconduct of DEQ.

I certify the statements and information in this homeowner application are true, accurate, and complete (IDAPA 58.01.01.123).
