RE: Facility ID No. 777-00637, Brett Price Excavating, Inc. - 00637, Rigby
 PR-2021.0031, Permit by Rule Registration Notification
 Portable Rock Crushing Facility

Dear Ms. Price:

The Department of Environmental Quality (DEQ) received a Permit by Rule Registration form on June 28, 2021, for a portable Nonmetallic Mineral Processing Plant from Brett Price Excavating, Inc. - 00637. The registration is for the following equipment, which includes all equipment currently registered for Facility ID No. 777-00637:

Primary Crushers and Grinding Mills¹

Primary Crusher
 Manufacturer: Terex/Cedarapids
 Type (e.g. jaw): Cone
 Serial No.: TRXCRQ23CC01K6954
 Capacity (T/hr): 200
 Year of Mfr.: 2018

Primary Crusher
Total Capacity (T/hr)²

T/hr: 200

Screen Decks

Manufacturer: Terex/Cedarapids
 Serial No.: TRXV6203
 Size: 6' x 20'
 Number of Decks: 3
 Year of Mfr.: 2019

Electrical Generators

Primary Generator
 Manufacturer: Caterpillar
 Output (kW): 500
 Fuel Type: Grade 2

Auxiliary Generator(s)

Manufacturer: N/A
 Output (kW):
 Fuel Type:

¹ Per 40 CFR 60.671, Capacity means the cumulative rated capacity of all initial crushers that are part of the plant. Initial crusher means any crusher into which nonmetallic minerals can be fed without prior crushing in the plant.

² T/hr = tons per hour

This registration for Permit by Rule is effective immediately. We recommend that you maintain a copy of this letter at all sites where the registered equipment is being operated or stored.

Please be advised that the equipment operation, monitoring, and recordkeeping for this portable rock crushing equipment must comply at all times with the Rules for the Control of Nonmetallic Mineral Processing Plants in accordance with IDAPA 58.01.01.790 through 802 and the applicable portions of 40 CFR 60 Subpart OOO - Standards of Performance for Nonmetallic Mineral Processing Plants. A copy of IDAPA 58.01.01.790 through 802 is attached. The text for 40 CFR 60 Subpart OOO may be viewed at www.ecfr.gov (browse to Title 40, Part 60.670). A description of the portable rock

crusher PBR program and links to PBR guidance and forms for registration, relocation, and operations monitoring are provided on DEQ's website at <http://www.deq.idaho.gov>.

EPA has amended 40 CFR 60 Subpart OOO - Standards of Performance for Nonmetallic Mineral Processing Plants for affected facilities which commence construction, modification, or reconstruction on or after April 22, 2008. These amendments include additional testing and monitoring, and changes to definitions and various other clarifications. These amendments were Incorporated by Reference into IDAPA 58.01.01.790 through 802 (Rules for the Control of Air Pollution in Idaho) on March 25, 2016. You must be in compliance with the applicable portions of 40 CFR 60 Subpart OOO, including the requirement to conduct opacity testing on any new, modified, or reconstructed equipment within 60 days after achieving the maximum production rate at which the affected facility will be operated, but not later than 180 days after initial startup.

In order to fully understand the compliance requirements of this Permit by Rule and the requirements of 40 CFR 60 Subpart OOO, DEQ highly recommends that you schedule a meeting with Rensay Owen, Idaho Falls Regional Air Quality Manager, at (208) 528-2650 to review and discuss the terms and conditions of this Permit by Rule. Should you choose to schedule this meeting, DEQ recommends the following representatives attend the meeting: your facility's plant manager, responsible official, environmental contact, and any other staff responsible for day-to-day compliance with permit conditions.

Other Air Quality Requirements

You are required to submit a portable equipment relocation form showing the initial location of the facility and an additional form each time the plant is moved to a new site of operations. DEQ requires that this form be submitted at least ten days prior to relocating the equipment. A copy of the form is enclosed for your convenience. You are also required to log the hours of operation for any electrical generator used, log all fugitive dust complaints, and log all triggers that initiate fugitive dust control. A copy of each of those forms is also enclosed. If you have questions regarding this Permit by Rule process, please contact Christina Boulay (208) 373-0502 or christina.boulay@deq.idaho.gov.

Sincerely,

Mike Simon
Stationary Source Bureau Chief
Air Quality Division
