Rulemaking Purpose

• Revise the fee structure of a Clean Air Act mandated air permitting program

• Known as the Title V program

• Administered by DEQ
History

• Idaho National Laboratory (INL) had been paying $500K in annual fees for many years

• January 2018: INL decreased its’ emissions to no longer need a Title V permit or to pay annual fees
History

• Started this rulemaking in 2019
• Evaluated costs of the Title V program to determine what should be covered by general funds instead
• Obtained ongoing general funds for non-Title V program work from the legislature in FY2020
• Realized the INL funding loss in FY2020
Title V Projected Fund Balance
Fee Increase Needed

• Current fee structure was established in 2006
• Determined that additional funds are needed to maintain the Title V program
DEQ Staff Processing Time 2014-2020

- Permitting
- Compliance
Tons of Emissions Registered

![Bar chart showing the number of tons of emissions registered from 2011 to 2021. The chart indicates a decrease in emissions over the years.](chart.png)
Fee Paying Tier I Facilities
Existing Fee Structure

- Fixed Fee
- Presumptive minimum
- Fee for service
Thank you
