

IDAHO DEPARTMENT OF ENVIRONMENTAL QUALITY
REUSE PERMIT
M-259-01 - Modification 1

Permittee Name: Rapid River Water and Sewer District

Effective Date of this Modification: August 18, 2021

Complete Description of Modification:

The purpose of this Permit Modification is to extend the completion due dates for Compliance Activities CA-259-01 and CA-259-02. The permittee requested an additional six months to complete the compliance activities. The additional six months requested will allow time for the permittee to develop the documents and work with DEQ in a collaborative manner.

Section 3. Compliance Schedule for Required Activities, page 8, Compliance Activities CA-259-01 and CA-259-02 completion due dates shall be replaced with the following:

Compliance Activity (CA) Number and Completion Due Date	Compliance Activity Description
CA-259-01 April 1, 2022	Disinfection Plan: Permittee shall submit a Disinfection Plan as needed to meet Class D disinfection limits contained in the permit. If construction upgrades (material modification) are deemed necessary, construction plans shall be submitted to DEQ in accordance with Section 4.4 of the permit. Within 180 days of DEQ approval of Disinfection Plan, the District shall implement the plan as required for compliance with disinfection limits specified in this permit.
CA-259-02 April 1, 2022	Ground Water Monitoring Plan: Submit to DEQ for review and approval a ground water monitoring plan for conducting ground water monitoring as required by Section 5.2 of the permit. The plan shall identify existing monitoring wells or construction of new monitoring wells. Construction plans for new monitoring wells shall be submitted to DEQ in accordance with Section 4.4 of the permit. For compliance purpose, a minimum of one (1) up gradient and two (2) down gradient monitoring wells shall be incorporated into the permit. Construction of new monitoring wells or decommissioning of existing monitoring wells shall be in accordance with requirements in IDAPA 37.03.09 – Well Construction Standards Rules. Within 180 days of DEQ approval of the Ground Water Monitoring Plan, the District shall implement the plan as required for compliance as specified in this permit.

Permit Modification 1 is hereby approved. This modification to the Permit is incorporated into,

Rapid River Water and Sewer District Reuse

Permit M-259-01, Modification 1

August 18, 2021

Page 2

and constitutes a part of, Reuse Permit No. M-259-01. This permit modification must be attached to the Permit. The Permit is incomplete under IDAPA 58.01.17, *Recycled Water Rules*, without this permit modification attached.

Signed,
