RE: Form 1 – General Information and Form 2D – NPDES for Go Left, LLC / The Edge Resort

Dear Sir/Madam

Enclosed please find Form 1 – General Information and Form 2D – NPDES to support development of The Edge Resort in Garden Valley, ID. This information was previously submitted to you via certified mail on 2 October 2018, on Form 2A. Form 2A was used at the direction of the Idaho Department of Environmental Quality (IDEQ). This turned out to be in error.

In our planning discussions with IDEQ beginning in 2017, we were originally told IDEQ would handle our discharge permit as they were taking over the permitting process beginning in July 2018. By their own admission, IDEQ told us this in error. As The Edge Resort is a private facility, IDEQ will not be taking over that portion of the NPDES permitting process until July 2019. Nevertheless, in a meeting on 19 July 2018 with IDEQ, our facility plan consultants, Great West Engineering, specifically asked IDEQ if we should submit on Form 2A or Form 2D. We were told to complete Form 2A and that they (IDEQ) would talk to EPA “backchannel” and ask for a completeness review. Great West Engineering submitted Form 1 and Form 2A to your office. We were informed by IDEQ on Thursday, 18 October 2018 that earlier in the week they had received our application from EPA without any review, comment or cover letter.

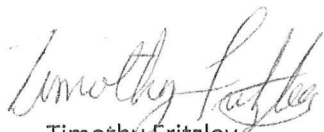

We have attached the meeting agenda and Richard Fritzley’s contemporaneous notes from the 19 July 2018 meeting, and Richard Fritzley’s email exchange with the Great West Engineering project manager. As you can see, Richard Fritzley was initially upset that Great West Engineering had apparently submitted the incorrect form on our behalf. In reviewing our records, we found that Great West did exactly what IDEQ had asked them to do on our behalf. IDEQ is going to process the permit as if it were a municipal system and not an industrial system, but the EPA forms and the IDEQ processes only allowed for either public municipal or private industrial. That is why IDEQ instructed us to file form 2A and they would speak with you, which did not happen and the form was returned to IDEQ.

We tried to call your office to discuss this information directly with your permit department, but due to the government shutdown calls are directed to voice mail, which said it would not be checked until after the shutdown. We are writing this letter in hopes that it will reach you sooner than a voice mail on your system.

Our experience with IDEQ has been very frustrating. We include this information in the hope that it may help in receiving some consideration from your office in expediting your review of our application prior

to IDEQ taking over in July 2019. IDEQ has indicated to us that they may not have resources to review, approve and issue a discharge permit until late in 2020 or possibly later. So that we do not get further caught in the transition of this portion of the permitting process your timely handling of this application would be greatly appreciated.

Sincerely,

Timothy Fritzley

Form 1 -- General Information

Form 2D -- NPDES

Great West Meeting Agenda for 19 July 2018 w/IDEQ

Richard Fritzley Meeting Notes for 19 July 2018 w/IDEQ

FORM 1 GENERAL		U.S. ENVIRONMENTAL PROTECTION AGENCY GENERAL INFORMATION Consolidated Permits Program <i>(Read the "General Instructions" before starting.)</i>	I. EPA I.D. NUMBER S F N/A 1 2 13 14 15
LABEL ITEMS I. EPA I.D. NUMBER III. FACILITY NAME V. FACILITY MAILING ADDRESS VI. FACILITY LOCATION		PLEASE PLACE LABEL IN THIS SPACE	GENERAL INSTRUCTIONS If a preprinted label has been provided, affix it in the designated space. Review the information carefully; if any of it is incorrect, cross through it and enter the correct data in the appropriate fill-in area below. Also, if any of the preprinted data is absent (the area to the left of the label space lists the information that should appear), please provide it in the proper fill-in area(s) below. If the label is complete and correct, you need not complete items I, III, V, and VI (except VI-B which must be completed regardless). Complete all items if no label has been provided. Refer to the instructions for detailed item descriptions and for the legal authorizations under which this data is collected.
II. POLLUTANT CHARACTERISTICS			
INSTRUCTIONS: Complete A through J to determine whether you need to submit any permit application forms to the EPA. If you answer "yes" to any questions, you must submit this form and the supplemental form listed in the parenthesis following the question. Mark "X" in the box in the third column if the supplemental form is attached. If you answer "no" to each question, you need not submit any of these forms. You may answer "no" if your activity is excluded from permit requirements; see Section C of the instructions. See also, Section D of the instructions for definitions of bold-faced terms .			
SPECIFIC QUESTIONS		Mark "X"	Mark "X"
		YES NO FORM ATTACHED	YES NO FORM ATTACHED
A. Is this facility a publicly owned treatment works which results in a discharge to waters of the U.S. ? (FORM 2A)		15 17 18 ☐ ☒ ☐	B. Does or will this facility (either existing or proposed) include a concentrated animal feeding operation or aquatic animal production facility which results in a discharge to waters of the U.S. ? (FORM 2B)
C. Is this a facility which currently results in discharges to waters of the U.S. other than those described in A or B above? (FORM 2C)		22 23 24 ☐ ☒ ☐	D. Is this a proposed facility (other than those described in A or B above) which will result in a discharge to waters of the U.S. ? (FORM 2D)
E. Does or will this facility treat, store, or dispose of hazardous wastes ? (FORM 3)		28 29 30 ☐ ☒ ☐	F. Do you or will you inject at this facility industrial or municipal effluent below the lowermost stratum containing, within one quarter mile of the well bore, underground sources of drinking water? (FORM 4)
G. Do you or will you inject at this facility any produced water or other fluids which are brought to the surface in connection with conventional oil or natural gas production, inject fluids used for enhanced recovery of oil or natural gas, or inject fluids for storage of liquid hydrocarbons? (FORM 4)		34 35 36 ☐ ☒ ☐	H. Do you or will you inject at this facility fluids for special processes such as mining of sulfur by the Frasch process, solution mining of minerals, in situ combustion of fossil fuel, or recovery of geothermal energy? (FORM 4)
I. Is this facility a proposed stationary source which is one of the 28 industrial categories listed in the instructions and which will potentially emit 100 tons per year of any air pollutant regulated under the Clean Air Act and may affect or be located in an attainment area? (FORM 5)		40 41 42 ☐ ☒ ☐	J. Is this facility a proposed stationary source which is NOT one of the 28 industrial categories listed in the instructions and which will potentially emit 250 tons per year of any air pollutant regulated under the Clean Air Act and may affect or be located in an attainment area? XI. MAP

Attach to this application a topographic map of the area extending to at least one mile beyond property boundaries. The map must show the outline of the facility, the location of each of its existing and proposed intake and discharge structures, each of its hazardous waste treatment, storage, or disposal facilities, and each well where it injects fluids underground. Include all springs, rivers, and other surface water bodies in the map area. See instructions for precise requirements.

XII. NATURE OF BUSINESS (provide a brief description)

The Owner and development team of The Edge Resort are constructing a multi-use facility to include a lodge facility with food service and hotel rooms and full-service RV hookups.

XIII. CERTIFICATION (see instructions)

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this application and all attachments and that, based on my inquiry of those persons immediately responsible for obtaining the information contained in the application, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

New Sources and New Dischargers Application for Permit to Discharge Process Wastewater

I. Outfall Location

For each outfall, list the latitude and longitude of its location to the nearest 15 seconds and the name of the receiving water.

Outfall Number (/list)	Latitude			Longitude			Receiving Water (name)
	Deg.	Min.	Sec.	Deg.	Min.	Sec.	
01	44.00	6.00	32.00	115.00	59.00	12.00	Wetland that discharges to Middle Fork Payette River

II. Discharge Date (When do you expect to begin discharging?)

08/15/2019

III. Flows, Sources of Pollution, and Treatment Technologies

A. For each outfall, provide a description of: (1) All operations contributing wastewater to the effluent, including process wastewater, sanitary wastewater, cooling water, and storm water runoff; (2) The average flow contributed by each operation; and (3) The treatment received by the wastewater. Continue on additional sheets if necessary.

Outfall Number	1. Operations Contributing Flow (List)	2. Average Flow (Include Units)	3. Treatment (Description or List codes from Table 2D-1)
01	Restaurant	4,000 gpd	3-A
01	Pub	1,000 gpd	3-A
01	Event/Wedding Tents	2,000 gpd	3-A
01	Mini-Cabins	8,000 gpd	3-A
01	Beach Shack	100 gpd	3-A
01	RV Pads	8,900 gpd	3-A
01	Village Pavilion Center	1,000 gpd	3-A
N/A	Solid Waste Not Discharged	N/A	Contracted and licensed septic hauler will pump solids and dispose

C. Except for storm runoff, leaks, or spills, will any of the discharges described in Items III-A be intermittent or seasonal?

☒ YES (complete the following table)☐ NO (go to Section IV)

IV. Production

Year	A. Quantity Per Day	B. Units Of Measure	c. Operation, Product, Material, etc. (<i>specify</i>)

CONTINUED FROM THE FRONT		EPA I.D. NUMBER (copy from Item 1 of Form 1) N/A	Outfall Number 01
V. Effluent Characteristics			
A and B: These items require you to report estimated amounts (<i>both concentration and mass</i>) of the pollutants to be discharged from each of your outfalls. Each part of this item addresses a different set of pollutants and should be completed in accordance with the specific instructions for that part. Data for each outfall should be on a separate page. Attach additional sheets of paper if necessary. General Instructions (See table 2D-2 for Pollutants) Each part of this item requests you to provide an estimated daily maximum and average for certain pollutants and the source of information. Data for all pollutants in Group A, for all outfalls, must be submitted unless waived by the permitting authority. For all outfalls, data for pollutants in Group B should be reported only for pollutants which you believe will be present or are limited directly by an effluent limitations guideline or NSPS or indirectly through limitations on an indicator pollutant.			
1. Pollutant	2. Maximum Daily Value (include units)	3. Average Daily Value (include units)	4. Source (see instructions)
Biochemical Oxygen Demand	45 mg/L	30 mg/L	1, 2, 3
Biochemical Oxygen Demand	28 lbs/day	6.3 lbs/day	1, 2, 3
Total Suspended Solids	45 mg/L	30 mg/L	1, 2, 3
Total Suspended Solids	28 lbs/day	6.3 lbs/day	1, 2, 3
Flow	75,000 gpd	25,000 gpd	1
Ammonia	8 mg/L	2 mg/L	1, 2, 3
Ammonia	5 lbs/day	0.4 lbs/day	1, 2, 3
Temperature (winter)	10°C	N/A	1, 2, 3
Temperature (summer)	20°C	N/A	1, 2, 3
Nitrate-Nitrite (as N)	20 mg/L	5 mg/L	1, 2, 3
Nitrate-Nitrite (as N)	12.5 lbs/day	1 lbs/day	1, 2, 3
Oil and Grease	10 mg/L	N/A	1, 2, 3
Oil and Grease	6.3 lbs/day	N/A	1, 2, 3
Phosphorus	8 mg/L	2 mg/L	1, 2, 3
Phosphorus	5 lbs/day	0.4 lbs/day	1, 2, 3
pH (min.)	9 s.u.	7 s.u.	1, 2, 3
pH (max.)	6 s.u.	7 s.u.	1, 2, 3
Fecal Coliform	126cfu/100mL	N/A	1, 2, 3

CONTINUED FROM THE FRONT		EPA I.D. NUMBER (copy from Item 1 of Form 1) N/A	
C. Use the space below to list any of the pollutants listed in Table 2D-3 of the instructions which you know or have reason to believe will be discharged from any outfall. For every pollutant you list, briefly describe the reasons you believe it will be present.			
1. Pollutant		2. Reason for Discharge	
N/A		N/A	
VI. Engineering Report on Wastewater Treatment			
A. If there is any technical evaluation concerning your wastewater treatment, including engineering reports or pilot plant studies, check the appropriate box below. ☒ Report Available ☐ No Report			
B. Provide the name and location of any existing plant(s) which, to the best of your knowledge resembles this production facility with respect to production processes, wastewater constituents, or wastewater treatments.			
Name N/A		Location N/A	

VII. Other Information (Optional)

Use the space below to expand upon any of the above questions or to bring to the attention of the reviewer any other information you feel should be considered in establishing permit limitations for the proposed facility. Attach additional sheets if necessary.

N/A

VIII. CERTIFICATION

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Hi Rich,

Attached are the draft Form 1 and Form 2D packets for the industrial NPDES application with required attachments. I've also attached the PDF form files for editing, if necessary. After your review and signature, you should submit to the Region 10 contact as listed on page 1-2 of the Form 1 instructions.

You have recently informed us that a Preliminary Engineering Report (PER) has been completed for the wastewater system and that a package treatment system has been purchased. It is important to note that the attached forms were completed using information from the previously completed Form 2A and the DEQ approved Facility Plan. If the PER or the package treatment plant differ from Facility Plan, the attached forms may require editing by Edge Resort.

Our contract with Edge Resort specifically stated that we would complete form 2A, not the industrial application attached. This contract was based on Great West's and Edge Resort's discussions with IDEQ, which gave us direction to use Form 2A. Great West now considers our contracted scope of services complete. We appreciate the opportunity to work for Edge Resort.

Our best,

Keri Hill | Associate Project Manager

Subject: RE: EPA Discharge Application

Keri,
I've been going through files tonight trying to get caught up on organizing things. I thought you might find the attached of interest. It is the agenda you mentioned to me along with my contemporaneous notes from the meeting. Note my first bullet item regarding IDEQ's direction for us to submit to the EPA but they would "ask back channel to do a completeness review." As I recall the discussion this would be so we would know that our application was complete and not get kicked out when it was turned over to IDEQ next year. I recall IDEQ was concerned it would just sit at EPA until they could pass it to IDEQ, but I also recall some talk about EPA should have more time since Idaho took over municipal applications. Also note my markup of your agenda. Hope this helps in further discussions with IDEQ.
Rich

Subject: EPA Discharge Application

Keri,
This is in follow-up to the voice mail I left you earlier today. IDEQ informed us today that earlier this week they received from the EPA the application Great West Engineering submitted to the EPA on behalf of Go Left, LLC / The Edge Resort. Evidently Great West submitted the wrong form. According to IDEQ it was submitted as a municipal application instead of an industrial application. Because Idaho has oversight for municipal applications EPA forwarded it without any review, comment or cover letter. As you will recall from our previous meetings with IDEQ, while IDEQ will treat wastewater from The Edge Resort as municipal wastewater, due to our ownership structure we fall under an industrial classification. This application needs to be resubmitted on the correct form ASAP as time is of the essence to Go Left, LLC / The Edge Resort in this matter. Please contact Tim or I as soon as possible with your timeframe for resubmission. Thanks.
Best Regards,
Rich

MEETING AGENDA

The Edge Resort Hauling Schedule Review & IPDES/NDPES Pre-application Meeting

PREPARED BY: Great West Engineering
PROJECT NUMBER: 4-17149
MEETING DATE: July 19, 2018
MEETING TIME: 3:30 PM
LOCATION: Idaho DEQ, Room D

TEMPORARY HAULING SCHEDULE

An agreed upon schedule for temporary hauling of treated effluent is required for completion and submission of the Wastewater Facility Plan. The plan will additionally include language that the Resort has a contingency plan to develop land application disposal in the event the provided schedule is delayed. This schedule will be utilized to develop a compliance agreement schedule between Resort and Idaho DEQ.

Proposed Schedule for treated effluent temporary hauling:

Task Description	Est. Task Milestone Dates	Est. Peak Wastewater GPD	Peak Loads/Day	Remarks
Waste Water Plant Phasing and Operations				
Construct Edge Collection and Treatment Systems	Aug. 18 - Dec. 18			Concurrent with other site construction, start on RV site
Startup/Commission Treatment System	Oct. 18 - Dec. 18			
Phased Peak Waste Water Flows & Truck Trips				Starting with RV Pads Flows
~~41~~ Cabins @ 125 GPD; 4 Cabins @ 75 GPD PP, 2.5 people. 80% Load	Nov. 18 - Nov. 19	6,800	2	3,800-gallon vacuum septic truck
Plus 10 Cabins and Pub Restaurant	Nov. 19 - Jul. 20	12,700	3	3,800-gallon vacuum septic truck
Plus 15 Cabins, Convenience Store	Jul. 20 - Nov. 20	16,450	4	3,800-gallon vacuum septic truck
Estimated IPDES Approval	Nov.20			
Discharge to Middle Fork of Payette River	Nov. 20	16,450	none	Up to 18,000 gpd Treated Effluent Discharge to River

IPDES/NDPES PRE-APPLICATION MEETING

Goals

- Determine whether the activities or facility will require IPDES permit and whether other suitable permitting options are available (e.g., reuse, discharge to ground water, or elimination of the discharge)
- Identify the IPDES permit application requirements
- Identify the IPDES permit application submittal schedule
- Discuss any applicable antidegradation provisions

Support Documentation

- Edge Resort Facility Plan - contains information recommended by IDEQ to support the pre-application meeting
- Location Map

Discussion Topics

1. Submittal Agency, EPA/DEQ

2. Forms

- a. IPDES Form 2A **YES**
- b. Mixing Zone Data Needs Form

3. Design Flow

- a. ~~Annual Average~~ ^{Peak} Day = 22,500 gpd
- b. Max Daily Flow = 67,500
- c. Design Flow = ?

4. Discharge Point

- ✓ a. Wetland
- b. Middle Fork Payette River

5. Receiving Water Flows

- ✓ a. Wetland
- b. Middle Fork Payette River

6. Effluent Testing Requirements

7. Hydrologic Connectivity

8. Mixing Zone

- a. Level of Analysis

3807 N Hawthorne Drive
