1.4.2 Technical Guidance Committee Product Approval Policies

Unless otherwise listed within this subsection of the TGM, all submissions for product approvals shall follow the process outlined in section 1.4.

1.4.2.1 Septic Tank Approvals

......

1.4.2.1.1 Initial Septic Tank Approvals

......

General Tank Specifications

......

Concrete Tank Specifications

......

Plastic, Polyethylene, and Fiberglass Tanks

......

Large Septic Tanks (>5000 gallons)

1. Large septic tanks (liquid volume > 5000 gallons) must adhere to the same design and approval requirements applied to all septic tanks per IDAPA 58.01.03.007, **with the exception of IDAPA 58.01.03.007.05.** Cast-in-place tanks are excluded from this requirement and shall be reviewed as a part of the proposed system engineering design reviewed by the DEQ regional office.

2. Additional dimensional requirements for large septic tanks specified in IDAPA 58.01.03.013.05 may be waived by DEQ upon design review if the tank meets all other applicable specifications.
