

Lazy River Mobile Retreat Residents
11575 North River Road,
Payette ID 83661

April 11, 2023

To: Department of Environmental Quality,

This letter is from some of the residents of Lazy River Mobile Retreat. We are writing today to ask the DEQ to help the owner of the park, Mr Ken Phillips, with a feasible way to correct the problem with the parks water so that he doesn't have to sell the park and we would all lose our homes.

Most all of the trailers are too old to move and the majority of the residents are low income and seniors who have lived there for years. We fear that if the DEQ can't adjust regulations to fit our situation and/or help Mr Phillips find an affordable way to meet those regulations it could result in 52 people (if not more) becoming homeless.

Payette is a small town and it doesn't have the low income housing available to meet all of those in need. To assist that many would be a huge burden put upon the town, not to mention the unnecessary hardship put upon the residents that would lose their homes, due to the regulations that don't allow room for flexibility.

We ask that you take into consideration all the lives that would be affected, as the DEQ moves forward towards finding a workable solution. Thank you for your time and consideration, and we appreciate the work you provide the communities in our state of Idaho.

Sincerely,

JoAnne Lindsey
