

Air Curtain Incinerator Registration Form

AIR CURTAIN INCINERATOR (ACI) REGISTRATION OVERVIEW

Air curtain incinerators that burn *only wood waste, clean lumber, and yard waste* do not require a Permit to Construct. These ACIs are considered a form of open burning, and both stationary and portable ACIs may use this form to register. Owners or operators who plan to burn materials other than wood waste, clean lumber, and yard waste cannot use this form to register and should contact the Idaho Department of Environmental Quality.

Any owner or operator of an air curtain incinerator that opts to operate in Idaho needs to meet all the requirements set forth in IDAPA 58.01.01, "Rules for the Control of Air Pollution in Idaho" — Sections 557 (Requirements During Air Quality Episodes), 600–614 (Rules for the Control of Open Burning), and 650–651 (Rules for the Control of Fugitive Dust). Portable ACIs must also meet the requirements set forth in IDAPA 58.01.01.500 (Registration Procedures and Requirements for Portable Equipment). IDAPA 58.01.01 can be accessed on the [Department of Administration's website](#). The owner or operators must also comply with [40 CFR 60.2970-2974](#) (Air Curtain Incinerators That Burn Only Wood Waste, Clean Lumber, And Yard Waste) and [40 CFR 60.2888.b](#), limiting air curtain incinerators that operate for residential, commercial, and industrial use to burn less than 35 tons of material per day and can *only burn wood waste, clean lumber, and yard waste*. These rules include requirements to use best management practices, opacity testing, and recordkeeping.
