

DRAFT 4 – SOLID WASTE FEE SCHEDULE	
Annual Inspection Fees	
Municipal and Tier III landfills	\$4000
Tier III processing facilities, incinerators, transfer stations, NSWI, and all Tier II facilities	\$2000
Tipping Fees (Municipal Solid Waste Facilities Only)	
Tipping fee per ton of MSW	\$0.07
Application Fees	
Municipal Solid Waste Landfills and Tier III Landfills	
Siting application (initial and/or major modification)	\$2000
Design preliminary application (MSW facilities only)	\$2000
Design final application	\$2000
All other major modifications (besides Siting)	\$1000
Groundwater monitoring plan application	\$2000
No Potential for Migration Demonstration	\$2000
Operations plan initial application	\$2000
Demonstration plan application	\$500
Closure post-closure care plan initial application	\$2000
Tier II Facilities & all other Tier III facilities	
Siting application (initial and/or major modification)	\$1000
Design application	\$2000
Operations plan initial application	\$1500
All other major modifications (besides siting)	\$500
Closure post-closure care plan initial application	\$1000
Corrective Action Plan (CAP) or Groundwater Monitoring Plan initial application	\$2000
CAP/GWMP major modification	\$1000

Clarifications

1. Co-located, strictly rule-based facilities shall be assessed one annual inspection fee based on the “site” classification. For example, a Tier II processing facility co-

located with a Tier II transfer station shall be assessed only one annual inspection fee that shall cover both activities.

2. Incorporate by reference (IBR) the Solid Waste Facilities Act (SWFA) specifications for major vs minor modifications.
3. IBR the fee authorities
4. Clarify that fees for site specific classifications. The higher facility classification fee will only apply to the initial siting application. Once the site-specific classification is approved the remaining applications will be assessed at the low classification fee.
5. Prorating – pilot project vs modification fee
6. Clarifications for combined applications: fees and review timelines
7. Fee for pilot project pro rates the operations plan update fee. Define final terms.
