Subject: Drinking Water Fees

CAUTION: This email originated outside the State of Idaho network. Verify links and attachments BEFORE you click or open, even if you recognize and/or trust the sender. Contact your agency service desk with any concerns.

Trying to review proposed changes, and not finding any clear provisional changes.

Proposed Rule shows "information pending"

Curious to know why after 30 years of the system functioning fine, why it needs an increase in funds, and what specifically those funds are going to be used for.

Public comments, this is an unnecessary increase in funds that retailers and community members can't afford.

Our drinking water is tested monthly. We receive no benefit from you charging more and unless there are data points to support failure rate increases and the lack of ability to handle those failures, a funding increase is not supported; additionally you are not providing very much to help businesses understand changes, prior to an open discussion. Does not seem fair on face value if you dont have the information to provide before hand.

Thank you,

Lance & Marissa Heindel
