DRAFT 3 – SOLID WASTE FEE SCHEDULE	
Annual Inspection Fees	
Municipal and Tier III landfills	$4000
Tier III processing facilities, incinerators, transfer stations, NSWI, and all Tier II facilities	$2000
Application Fees	
Municipal Solid Waste Landfills and Tier III Landfills	
Tipping fee per ton of MSW	$0.07
Siting application (initial and/or major modification)	$2000
Design preliminary application (MSW facilities only)	$2000
Design final application	$2000
Design major modification	$1000
Groundwater monitoring plan application (including major modifications)	$2000
No Potential for Migration Demonstration	$2000
Operations plan initial application	$2000
Operations plan major modification	$1000
Demonstration plan application	$500
Closure post-closure care plan initial application or major modification application	$2000
Tier II Facilities	
Siting application (initial and/or major modification)	$1000
Design application (initial and/or major modification)	$2000
Operations plan initial application	$1500
Operations plan major modification	$500
Closure post-closure care plan initial application	$1000
Closure post-closure care plan major modification	$500
Corrective Action Plan (CAP) or Groundwater Monitoring Plan initial application	$2000
CAP/GWMP major modification	$1000

Clarifications

1. Co-located, strictly rule-based facilities shall be assessed one annual inspection fee based on the "site" classification. For example, a Tier II processing facility co-located with a Tier II transfer station shall be assessed only one annual inspection fee that shall cover both activities.
2. Incorporate by reference (IBR) the Solid Waste Facilities Act (SWFA) specifications for major vs minor modifications.
3. IBR the fee authorities
4. For complaint inspections, the fee will only be assessed if the complaint is substantiated.
5. Clarify that fees for site specific classifications. The higher facility classification fee will only apply to the initial siting application. Once the site-specific classification is approved the remaining applications will be assessed at the low classification fee.
6. Prorating – pilot project vs modification fee
7. Clarifications for combined applications: fees and review timelines
8. Fee for pilot project pro rates the operations plan update fee. Define final terms.

Definitions

- Pilot Project or Demonstration
- IBR Co-located facility
- IBR MSW Major Modification
- IBR MSW Minor Modification
- Define Rule based major vs minor modification
- NSWI
