RE: Facility No. 083-00097, Jayco Inc Plant #2, Kimberly
P-2011.0103, Project 63653
Permit to Construct (PTC) Final

Dear Jennifer Schreiber:

The Department of Environmental Quality (DEQ) is issuing a PTC to Jayco Inc Plant #2 for the modification of the permit to replace a woodworking baghouse. This PTC is issued in accordance with IDAPA 58.01.01.200 through 227 (Rules for the Control of Air Pollution in Idaho) and is based on the certified information provided in your PTC application received October 9, 2025.

This permit is effective immediately and replaces PTC No. P-2011.0103, issued on December 18, 2018. This permit does not release Jayco Inc Plant #2 from compliance with all other applicable federal, state, or local laws, regulations, permits, or ordinances.

In order to fully understand the compliance requirements of this permit, DEQ highly recommends that you schedule a permit handoff meeting with Bobby Dye, Air Quality Manager, at (208) 736-2190 to review and discuss the terms and conditions of this permit. Should you choose to schedule this meeting, DEQ recommends that the following representatives attend the meeting: your facility's plant manager, responsible official, environmental contact, and any other staff responsible for day-to-day compliance with permit conditions.

Pursuant to IDAPA 58.01.23, you, as well as any other entity, may have the right to appeal this final agency action within 35 days of the date of this decision. However, prior to filing a petition for a contested case, I encourage you to contact Tatiana Mojica Maus at (208) 373-0502 or Tatiana.mojicamaus@deq.idaho.gov to address any questions or concerns you may have with the enclosed permit.

Sincerely,

Zach Klotovich
Stationary Source Bureau Chief
Air Quality Division
