RE: Support for Docket No. 58-0106-2601 – Solid Waste Management Rules

Ben Jarvis,

On behalf of the Idaho Solid Waste Association (ISWA), we are pleased to express our support for the Idaho Department of Environmental Quality's proposed rulemaking under Docket No. 58-0106-2601.

ISWA strongly supported the legislation establishing the transition to a consolidated, statewide solid waste regulatory program administered by DEQ. We believe this approach will provide greater consistency, accountability, and technical expertise for Idaho's solid waste facilities while maintaining a strong and effective regulatory program.

We especially appreciate DEQ's willingness to listen to and consider the comments and concerns provided by ISWA and the regulated community throughout the scoping and negotiated rulemaking process. This collaborative approach has resulted in a proposed fee structure that we believe is reasonable, provides resources necessary to effectively administer the program, and meets the intent of the legislation.

For these reasons, the Idaho Solid Waste Association supports adoption of Docket No. 58-0106-2601 and appreciates DEQ's continued partnership with Idaho's solid waste community.

Sincerely,

President
Idaho Solid Waste Association
