CAUTION: This email originated outside the State of Idaho network. Verify links and attachments BEFORE you click or open, even if you recognize and/or trust the sender. Contact your agency service desk with any concerns.

To whom it concerns:

We are not able to attend the meeting but wanted to express our concern about the environmental effects to our food and water supply that unregulated contaminates like PFAs are having and will continue to have if they remain unchecked in the use of Class A-E recycled wastewater throughout our state. We already know those items are in the treasure valley water supply and it's very disheartening that public health and quality water is not a priority.

Kind Regards,

Janie and Diego Corzo
