Scoping Meeting 2 – Full Solid Waste Rule Chapter: IDAPA 58.01.06

Overview

This scoping meeting is to provide an opportunity for stakeholder discussion regarding general updates needed to the Solid Waste Management Rules and the changes authorized by the Idaho Solid Waste Facilities Act, effective July 1, 2026, that the Department is to establish in rule.

During the October 21, 2026, meeting DEQ provided an overview of the rulemaking timeline and process. DEQ also requested feedback from stakeholders on topics and priority items. **DEQ provided a list of items currently targeted for update and asked stakeholders to come prepared to the November meeting with topics or priority items that should be addressed.**

The current list of items discussed includes but is not limited to:

- Definition updates and the inclusion of rural drop box sites (convenience sites),
- Requirements for recycling facilities such as MRFs
- Separating compost from the processing facility classification,
    - Clarifications for food waste
- Tier system organization – should the general requirement sections stay listed outside of the requirements each specific facility type
- Application review process alignment
- Exemptions for Tier I sites – mining sites - on site disposal of stormwater pond liners
- Addition of Digesters and requirements
- NSWI classification and specific requirements
