I, the Homeowner/landlord, will accept ownership of the heating device provided by the St. Maries Woodstove Changeout Program. I further understand that, for the life of the new heating device, any new tenants will be instructed on the proper use of the device.

I, the Tenant, agree to the following:

- I will operate the heating appliance in accordance with the manufacturer's instructions.
- For woodstoves and pellet stoves, I will follow proper burning practices as discussed by the Participating Vendor and in accordance with EPA BurnWise educational materials. I will not burn pressure-treated wood, garbage/trash, plastic, or any other EPA prohibited materials.
- I understand that proper wood-burning practices (e.g., burning only dry, natural wood that has been seasoned at least 6 months or commercially designed fire logs approved for woodstove use) and proper stove installation and operation (e.g., maintaining a hot fire) are critical to the effectiveness of the heating device.
- I would be willing to provide feedback to DEQ in an effort to improve the process.
