RE: Drum disposal complaint
R & R Sanitation
305 Franklin, Meridian

Pursuant to the complaint referred to your department by the EPA, I spoke with Bob Christiansen (owner, R & R Sanitation) on 4-27-83. I explained the nature of the complaint to Mr. Christiansen. He said that he did bury empty oil drums and some cardboard drums that had contained miscellaneous parts. Also broken-up toilets were buried. Mr. Christiansen said he never buried any caustic or corrosive materials on the property.

Mr. Christiansen said they still own the ground and we are welcome to survey with the organic vapor analyzer if we so choose. He also said that if required he will remove said items.

Please refer this information to the appropriate agencies and keep me posted on any further action.

Thank you.

SUBJECT: Drum Disposal at R & R Sanitation, Meridian, Idaho

FROM: Steve Provant, Air & Hazardous Waste Team Leader

TO: Daryl Koch, Hazardous Materials Bureau, IDHW/DOE

After reviewing the report from Marty Jones on his investigation of the complaint that drums of hazardous wastes may have been buried at the Meridian R & R location, I have the following concerns:

1. Doesn't Ada County have an ordinance against landfilling at unapproved locations? If so, shouldn't R & R Sanitation be subject to possible County litigation?

2. Why did R & R Sanitation elect to go to the expense of burying "empty" containers on site? It would seem the cheapest way to deal with the materials would have been to haul them to the Ada County Landfill which is only a few miles away. More information is needed to determine if R & R may have had hazardous wastes and took the easy way out in disposing of them on site rather than sending them to ESI.

3. Local residents should be contacted to determine if there were any eye witnesses to the burial (other than the original complainant) and to determine the nature of their operation (i.e., clean or messy).

4. An inspection of the site should be made to determine if there are any visual indications that hazardous wastes may have been disposed of on-site.

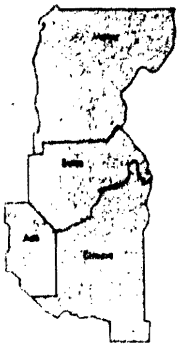

We will provide you with assistance in following up on this investigation if so requested.

Dear Mr. Christiansen:

On 4-27-83 we discussed the drum disposal complaint that had been received by the EPA. It has now come to my attention, that the information I returned to the EPA was insufficient and they are requesting further details. I have scheduled a meeting at my office on 6-20-83 at 1:00 p.m. to discuss the situation. It is very important that we meet on this matter. If you have any problems with the scheduling please let me know.

Respectfully,

MEMO:

RE: R & R Sanitation complaint - drum disposal

A meeting was held this date at the Central District Health Department. Present at the meeting were:

Bob Christiansen - R & R Sanitation
Daryl Koch - Division of Environment
Hazardous Materials Bureau

I gave a brief description of what had occurred since I last talked with Mr. Christiansen. Mr. Koch then went over the memo he had received from the EPA Boise operations. Mr. Christiansen asked for any recommendations and also noted he had before said he would dig up what he had buried and dispose of at the sanitary landfill. Daryl Koch and myself will be present during the excavation and photos will be taken for verification to the EPA. Tentatively scheduled for Tuesday, 6-28-83, at 9:00 a.m.

Attached are my findings for the above mentioned complaint. I would appreciat if you could relay this information to the proper authorities, along with the following recommendation:

(1) The complaint investigation should be terminated since we feel the company has adequately shown no hazardous wastes were disposed on the site. (See attached report and photos)

Re: Drum disposal at R & R Sanitation, 305 Franklin, Meridian Idaho

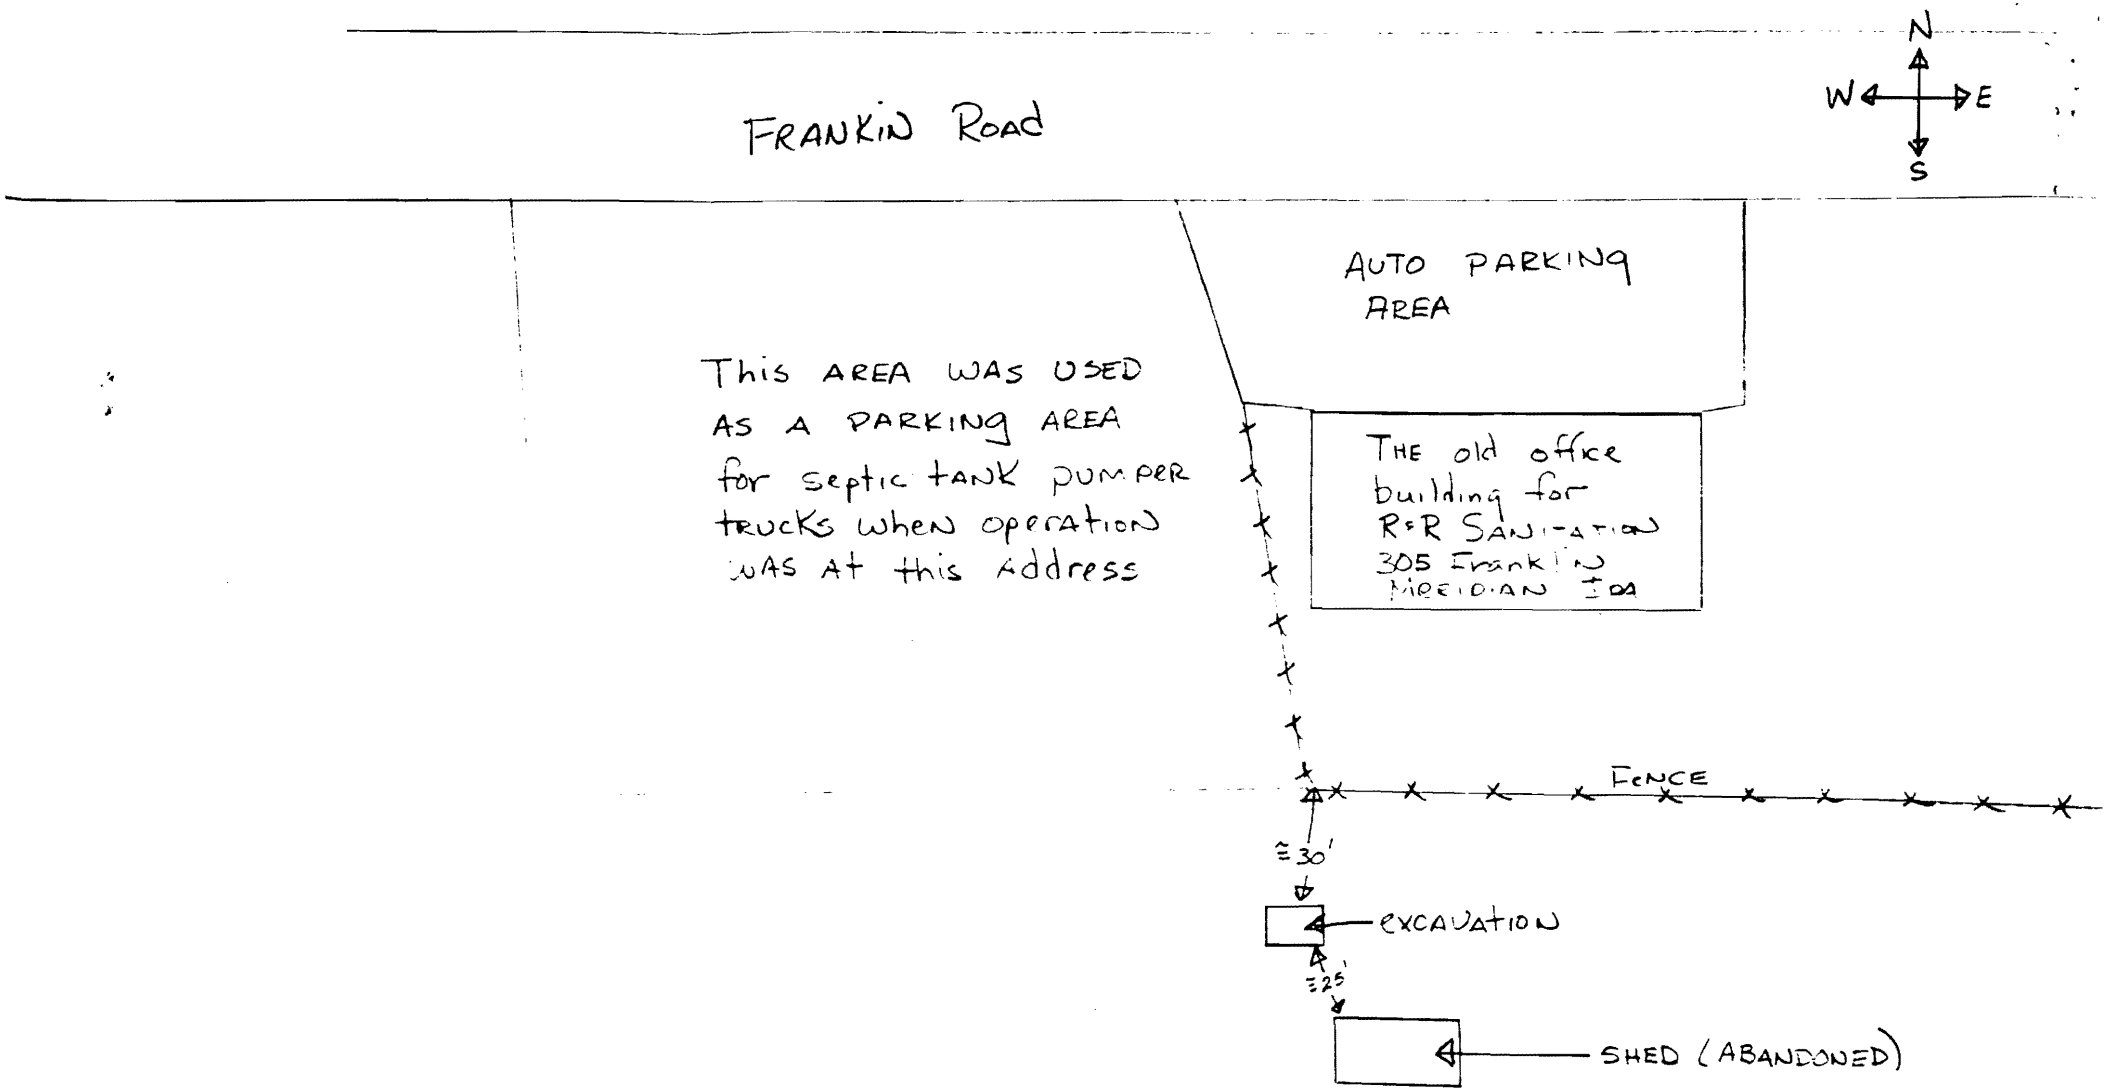

On June 28, 1983 (at 9:00 a.m.) Daryl Koch (Division of Environment) and myself (Martin O. Jones, E.H.S.) visually observed Mr. Robert Christiansen of R & R Sanitation excavate the site where refuse had been disposed of some time ago. (See attached photos and site map). The size of the excavation was ten (10) feet long by three (3) feet wide and nine (9) feet in depth. It was obvious from the soil strata on the sides of the excavation that the original dumping pit was here. No other remnants of refuse was noted on the sidewalls of the trench. Mr. Christiansen excavated down to the high seasonal ground-water table and no materials were found to be present. The following items were removed from the excavation and loaded into his dump truck for disposal at the local landfill:

- Two (2) five (5) gallon, crushed and empty oil cans
- One (1) crushed hot water tank
- Miscellaneous septic tank pumper truck hoses and fittings
- porcelain plumbing fixtures (stools)

After the material had been excavated, Daryl Koch ran organic vapor tests, using a HNU Photo Ionizer (Model number PL 101), both on the material in the dump truck and also down in the excavation. Both areas tested were completely negative for organic vapors. The excavation was backfilled and I requested that Mr. Christiansen send receipt from the sanitary landfill where material disposed at.

Receipt was dropped off by Mr. Christiansen at 1:00 p.m. on 6/28/83.

IV. COMMENTS**********

COMMENT1: An anonymous call to Boise EPA (4/11/83) alleged that Robert
COMMENT2: Christiansen (owner of R&R Sanitation) illegally buried drums at
COMMENT3: this site. EPA referred the call to the IDHW HMB who then directed
COMMENT4: the Health Dist 4 Haz. Waste Officer (Marty Jones) to investigate
COMMENT5: the alleged burial. The burial site was excavated, photos were
COMMENT6: taken and organic vapor tests were run. Miscellaneous trash was
COMMENT7: buried at the site (see Part 1.iv.04) and owner took it to the SLF.
COMMENT8: R & R is a RCRA permitted carrier of haz. waste and is inspected
COMMENT9: regularly. No uncontrolled haz. waste disposal problems.

File Note

Site name: R & R Sanitation ID #: IDD082838889

Other State file Information

H Waste: Several RCRA inspection reports from Marty J.; 2/25/81, 9/21/81, 9/17/82, 3/30/83; no problems noted; not copied.

Six letters in file relating to an alleged drum disposal at Meridian R+R; Copied letter for ERRIS file; also a site map; HW file has 5 photos of 6/20/83 excavation.

Water Quality: Several letters relating to sewage disposal

Air: none

Comments from Interviews

Daryl Koch (IDHW): Site was excavated; contained miscellaneous garbage.

2/14/83 Robert Christensen (334-2741) (R+R): Dug up the site for the state; inspectors were there; nothing else buried; no one using site now; he was leasing it to someone last year; used it to park his RR trucks.
