Certified Mail No. 7102 0243 6844 0000 0670

Murray Dalgleish
Superintendent
Council School District
P.O. Box 68
Council, ID 83612

RE: Facility ID No. 003-00006, Council School District, Council, Idaho
Final Permit Letter

Dear Mr. Dalgleish:

The Department of Environmental Quality (DEQ) is issuing Permit to Construct (PTC) No. P-2007.0196 to the Council School District to correct a particulate matter grain loading standard in accordance with IDAPA 58.01.01.200 through 228 (Rules for the Control of Air Pollution in Idaho).

The initial permit to construct, issued on September 23, 2005, included an incorrect particulate matter grain loading standard for the wood-fired combustion unit. This permit to construct revision corrects the standard from 0.08 grains per dry standard cubic foot to 0.200 grains per dry standard cubic foot in accordance with IDAPA 58.01.01.677. All other permit conditions remain the same.

Pursuant to IDAPA 58.01.23, you, as well as any other entity, may have the right to appeal this final agency action within 35 days of the date of this decision. However, prior to filing a petition for a contested case, I encourage you to contact Dan Pitman at (208) 373-0502 or daniel.pitman@deq.idaho.gov to address any questions or concerns you may have regarding the enclosed permit.

Sincerely,

Mike Simon
Stationary Source Program Manager
Air Quality Division

8. **PERMIT AUTHORITY**

This permit is issued according to the Rules for the Control of Air Pollution in Idaho, IDAPA 58.01.01.200 through 228, and pertains only to emissions of air contaminants regulated by the state of Idaho and to the sources specifically allowed to be constructed or modified by this permit.

This permit (a) does not affect the title of the premises upon which the equipment is to be located; (b) does not release the permittee from any liability for any loss due to damage to person or property caused by, resulting from, or arising out of the design, installation, maintenance, or operation of the proposed equipment; (c) does not release the permittee from compliance with other applicable federal, state, tribal, or local laws, regulations, or ordinances; (d) in no manner implies or suggests that the Department of Environmental Quality (DEQ) or its officers, agents, or employees, assume any liability, directly or indirectly, for any loss due to damage to person or property caused by, resulting from, or arising out of design, installation, maintenance, or operation of the proposed equipment.

This permit will expire if construction has not begun within two years of its issue date or if construction is suspended for one year.

This permit has been granted on the basis of design information presented with its application. Changes in design, equipment or operations may be considered a modification. Modifications are subject to DEQ review in accordance with IDAPA 58.01.01.200 through 228 of the Rules for the Control of Air Pollution in Idaho.

1. PERMIT TO CONSTRUCT SCOPE

Purpose

1.1 The purpose of this permit is to correct the fuel burning equipment particulate matter grain loading standard.

1.2 Those permit conditions that have been modified or revised by this permitting action are identified by a date citation located directly under the permit condition on the right hand margin.

1.3 This PTC replaces PTC No. P-050022, issued on September 23, 2005, the terms and conditions of which shall no longer apply.

Regulated Sources

2. WOOD-FIRED BOILER

2.1 Process Description

The wood-fired boiler consists of a Hurst Boiler and a wood fired single combustion chamber Messersmith Combustor. The Messersmith Combustor is a sloped grate assembly fed by a stoker auger.

2.2 Emissions Control Description

Emissions from the wood-fired boiler are uncontrolled.

<table>

</tbody>
</table>

Emissions Limits

2.3 Emissions Limit

Formaldehyde emissions from the wood-fired boiler stack shall not exceed 39.6 pounds per year.

2.4 Opacity Limit

Emissions from the wood-fired boiler stack, or any other stack, vent, or functionally equivalent opening associated with the wood-fired boiler, shall not exceed 20% opacity for a period or periods aggregating more than three minutes in any 60-minute period as required by IDAPA 58.01.01.625. Opacity shall be determined by the procedures contained in IDAPA 58.01.01.625.

2.5 Fuel-Burning Equipment – Particulate Matter Standards

The permittee shall not discharge PM into the atmosphere from any fuel-burning equipment in excess of 0.200 gr/dscf of effluent gas corrected to 8% oxygen by volume for wood products in accordance with IDAPA 58.01.01.677.

[10/22/07]

Operating Requirements

2.6 Boiler Operations

The permittee shall operate the boiler in accordance with manufacturer’s recommendations and specifications.

2.7 Annual Fuel Usage Limit

The maximum annual fuel usage shall not exceed 618 tons per any consecutive 12-month period.
Monitoring and Recordkeeping Requirements

2.8 Annual Fuel Usage Monitoring and Recordkeeping

The permittee shall monitor and record daily and monthly the number of hours the boiler operates. The permittee shall then calculate the monthly fuel usage using Eq.1 below, or a DEQ-approved alternative. Annual fuel usage shall be determined by summing each monthly fuel usage, determined using Eq.1, over the previous consecutive 12-month period to demonstrate compliance with Permit Condition 2.7.

Eq.1 Monthly fuel usage (tons/month) = monthly hours of operation x 0.2315

Where: 0.2315 = boiler heat input rate / wet fuel heat value

= (2.5 x 10^6 Btu/hr) / [(9,000 Btu/bone dry lb) x ((1- fuel moisture content, 40%) bone dry lb/ 1 lb of fuel as received) x (1 ton/2000 lb)]

= (2.5 x 10^6 Btu/hr) / (5,400 Btu/lb wet wood) (1 ton/2000 lb)

The most recent two years' compilation of records shall be kept onsite and shall be made available to DEQ representatives upon request.

2.9 Manufacturer’s Recommendations and Specifications for the Operation of the Wood-Fired Boiler

The permittee shall maintain the manufacturer’s recommendations and specifications for the operation of the wood-fired boiler on site at all times and shall make them available to DEQ representatives upon request. A copy of the document shall be submitted to DEQ’s Boise Regional Office at the following address:

Air Quality Permit Compliance
Department of Environmental Quality
Boise Regional Office
1445 N. Orchard
Boise, ID 83706

Reporting Requirements

2.10 Reporting

The permittee shall comply with the procedures and requirements of IDAPA 58.01.01.130-136 for any exceedance of any emissions limits contained in Permit Conditions 2.3, 2.4, and 2.5 during startup, shutdown, scheduled maintenance, safety measures, upset and breakdown.
3. PERMIT TO CONSTRUCT GENERAL PROVISIONS

General Compliance

1. The permittee has a continuing duty to comply with all terms and conditions of this permit. All emissions authorized herein shall be consistent with the terms and conditions of this permit and the Rules for the Control of Air Pollution in Idaho. The emissions of any pollutant in excess of the limitations specified herein, or noncompliance with any other condition or limitation contained in this permit, shall constitute a violation of this permit and the Rules for the Control of Air Pollution in Idaho, and the Environmental Protection and Health Act, Idaho Code §39-101, et seq.

[Idaho Code §39-101, et seq.]

2. The permittee shall at all times (except as provided in the Rules for the Control of Air Pollution in Idaho) maintain in good working order and operate as efficiently as practicable, all treatment or control facilities or systems installed or used to achieve compliance with the terms and conditions of this permit and other applicable Idaho laws for the control of air pollution.

[IDAPA 58.01.01.211, 5/1/94]

3. Nothing in this permit is intended to relieve or exempt the permittee from the responsibility to comply with all applicable local, state, or federal statutes, rules and regulations.

[IDAPA 58.01.01.212.01, 5/1/94]

Inspection and Entry

4. Upon presentation of credentials, the permittee shall allow DEQ or an authorized representative of DEQ to do the following:
   a. Enter upon the permittee’s premises where an emissions source is located or emissions related activity is conducted, or where records are kept under conditions of this permit;
   b. Have access to and copy, at reasonable times, any records that are kept under the conditions of this permit;
   c. Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under this permit; and
   d. As authorized by the Idaho Environmental Protection and Health Act, sample or monitor, at reasonable times, substances or parameters for the purpose of determining or ensuring compliance with this permit or applicable requirements.

[Idaho Code §39-108]

Construction and Operation Notification

5. The permittee shall furnish DEQ written notifications as follows in accordance with IDAPA 58.01.01.211:
   a. A notification of the date of initiation of construction, within five working days after occurrence;
b. A notification of the date of any suspension of construction, if such suspension lasts for one year or more;

c. A notification of the anticipated date of initial start-up of the stationary source or facility not more than sixty days or less than thirty days prior to such date;

d. A notification of the actual date of initial start-up of the stationary source or facility within fifteen days after such date; and

e. A notification of the initial date of achieving the maximum production rate, within five working days after occurrence - production rate and date.

[IDAPA 58.01.01.211, 5/1/94]

**Performance Testing**

6. If performance testing (air emissions source test) is required by this permit, the permittee shall provide notice of intent to test to DEQ at least 15 days prior to the scheduled test date or shorter time period as approved by DEQ. DEQ may, at its option, have an observer present at any emissions tests conducted on a source. DEQ requests that such testing not be performed on weekends or state holidays.

All performance testing shall be conducted in accordance with the procedures in IDAPA 58.01.01.157. Without prior DEQ approval, any alternative testing is conducted solely at the permittee’s risk. If the permittee fails to obtain prior written approval by DEQ for any testing deviations, DEQ may determine that the testing does not satisfy the testing requirements. Therefore, at least 30 days prior to conducting any performance test, the permittee is encouraged to submit a performance test protocol to DEQ for approval. The written protocol shall include a description of the test method(s) to be used, an explanation of any or unusual circumstances regarding the proposed test, and the proposed test schedule for conducting and reporting the test.

Within 30 days following the date in which a performance test required by this permit is concluded, the permittee shall submit to DEQ a performance test report. The written report shall include a description of the process, identification of the test method(s) used, equipment used, all process operating data collected during the test period, and test results, as well as raw test data and associated documentation, including any approved test protocol.

[ IDAPA 58.01.01.157, 4/5/00]

**Monitoring and Recordkeeping**

7. The permittee shall maintain sufficient records to ensure compliance with all of the terms and conditions of this permit. Records of monitoring information shall include, but not be limited to the following: (a) the date, place, and times of sampling or measurements; (b) the date analyses were performed; (c) the company or entity that performed the analyses; (d) the analytical techniques or methods used; (e) the results of such analyses; and (f) the operating conditions existing at the time of sampling or measurement. All monitoring records and support information shall be retained for a period of at least five years from the date of the monitoring sample, measurement, report, or application. Supporting information includes, but is not limited to, all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation and copies of all reports required by this permit. All records
required to be maintained by this permit shall be made available in either hard copy or electronic format to DEQ representatives upon request.

[IDAPA 58.01.01.211, 5/1/94]

**Excess Emissions**

8. The permittee shall comply with the procedures and requirements of IDAPA 58.01.01.130-136 for excess emissions due to startup, shutdown, scheduled maintenance, safety measures, upsets and breakdowns.

[IDAPA 58.01.01.130-136, 4/5/00]

**Certification**

9. All documents submitted to DEQ, including, but not limited to, records, monitoring data, supporting information, requests for confidential treatment, testing reports, or compliance certification shall contain a certification by a responsible official. The certification shall state that, based on information and belief formed after reasonable inquiry, the statements and information in the document(s) are true, accurate, and complete.

[IDAPA 58.01.01.123, 5/1/94]

**False Statements**

10. No person shall knowingly make any false statement, representation, or certification in any form, notice, or report required under this permit, or any applicable rule or order in force pursuant thereto.

[IDAPA 58.01.01.125, 3/23/98]

**Tampering**

11. No person shall knowingly render inaccurate any monitoring device or method required under this permit or any applicable rule or order in force pursuant thereto.

[IDAPA 58.01.01.126, 3/23/98]

**Transferability**

12. This permit is transferable in accordance with procedures listed in IDAPA 58.01.01.209.06.

[IDAPA 58.01.01.209.06, 4/11/06]

**Severability**

13. The provisions of this permit are severable, and if any provision of this permit to any circumstance is held invalid, the application of such provision to other circumstances, and the remainder of this permit, shall not be affected thereby.
