Dear Mr. Besancon:

On April 25, 2003 the Department of Environmental Quality (Department) received a Permit by Rule (PBR) registration from CPM Development Corp for a nonmetallic mineral processing plant. CPM Development Corp has registered the following equipment as required by IDAPA 58.01.01.797.02 *Rules for the Control of Air Pollution in Idaho*.

Pioneer Jaw Crusher

Caterpillar Generator

Torgerson Impact Crusher

Serial No.: 91TSONCX

There is no existing air quality permit associated with this company; therefore, no termination action is required.

Owners and operators of nonmetallic mineral processing plants that opt for a PBR shall comply with all of the applicable provisions of IDAPA 58.01.01.795-799. Registration for a PBR does not relieve the owner or operator of portable equipment from the registration and relocation requirements of IDAPA 58.01.01.500. The Department recommends that CPM Development Corp maintain this letter, the April 24, 2003 PBR registration, and all required monitoring and recordkeeping information at each site of operation.
