PR-2018.0040, Project 63157
Nonmetallic Mineral Processing Plant Permit by Rule (PBR) Registration

Dear Matt Peak:

The Department of Environmental Quality (DEQ) is issuing a PBR Registration for a portable Nonmetallic Mineral Processing Plant for Peak Sand & Gravel, Inc. 00088. The registration is for the following equipment:

Rock Crushers and Grinding Mills¹

Crusher Classification	Type	Manufacturer	Serial No. / Equipment ID No.	Date of Manufacture	Capacity (T/hr) ²
Primary	Jaw	Metso-Nordberg	8024CFAB2C	1999	1,100
Secondary	Cone	KPI-JCI Astec	546726B	2018	1,100
Secondary	Cone	Metso	G-3815	2000	1,100
Tertiary	Cone	Metso	CT-0509	1997	1,100
Tertiary	Cone	Metso	3378-1822099	2005	1,100
Tertiary	Impactor	ISC	40-134	2007	1,100
Tertiary	Impactor	ISC	ISC-77	2005	1,100
Tertiary	Cone	Metso	HP40023	2002	1,100

¹ Per 40 CFR 60.671, Capacity means the cumulative rated capacity of all initial crushers that are part of the plant. Initial crusher means any crusher into which nonmetallic minerals can be fed without prior crushing in the plant.

² T/hr = tons per hour

Screen Decks

Manufacturer	Physical Size (feet x feet)	No. of Decks	Serial No. / Equipment ID No.	Date of Manufacture
JCI	6 x 20	2	S031170	2003
Astec	8 x 20	3	S225511	2021
Astec	8 x 20	3	S225512	2021
KPI-JCI Astec	6 x 20	3	S1745-14/S17WPT0396	2018
Fisher	13" Air Separator	N/A	AS-10-605121	2010
Fisher	13" Air Separator	N/A	AS-177-621125	2013

Electrical Generators

Manufacturer	Rated Output (kW)	Fuel Type
Caterpillar	1500	Grade 2 Fuel Oil
Caterpillar	1500	Grade 2 Fuel Oil
Caterpillar	60	Grade 2 Fuel Oil

This Permit by Rule registration is effective immediately, and replaces Permit by Rule registration PR-2018.0040, Project 62117 issued on September 28, 2018. We recommend that you maintain a copy of this letter at all sites where the registered equipment is being operated or stored.

Please be advised that the equipment operation, monitoring, and recordkeeping for this portable rock crushing equipment must comply at all times with the Rules for the Control of Nonmetallic Mineral Processing Plants in accordance with IDAPA 58.01.01.790 through 802 and the applicable portions of 40 CFR 60 Subpart OOO - Standards of Performance for Nonmetallic Mineral Processing Plants. A copy of IDAPA 58.01.01.790 through 802 is attached. The text for 40 CFR 60 Subpart OOO may be viewed at www.ecfr.gov (browse to Title 40, Part 60.670 - 676). A description of the portable rock crusher PBR program and links to PBR guidance and forms for registration, relocation, and operations monitoring are provided on DEQ's website at <http://www.deq.idaho.gov>.

EPA has amended 40 CFR 60 Subpart OOO - Standards of Performance for Nonmetallic Mineral Processing Plants for affected facilities which commence construction, modification, or reconstruction on or after April 22, 2008. These amendments include additional testing and monitoring, and changes to definitions and various other clarifications. You must be in compliance with the applicable portions of 40 CFR 60 Subpart OOO, including the requirement to conduct opacity testing on any new, modified, or reconstructed equipment within 60 days after achieving the maximum production rate at which the affected facility will be operated, but not later than 180 days after initial startup.

In order to fully understand the compliance requirements of this Permit by Rule and the requirements of 40 CFR 60 Subpart OOO, DEQ highly recommends that you schedule a meeting with Almer Casile, Air Quality Analyst, at (208) 769-1422 to review and discuss the terms and conditions of this Permit by Rule. Should you choose to schedule this meeting, DEQ recommends the following representatives attend the meeting: your facility's plant manager, responsible official, environmental contact, and any other staff responsible for day-to-day compliance with permit conditions.

Other Air Quality Requirements

You are required to submit a portable equipment relocation form showing the initial location of the facility and an additional form each time the plant is moved to a new site of operations. DEQ requires that this form be submitted at least ten days prior to relocating the equipment. A copy of the form is enclosed for your convenience. You are also required to log the hours of operation for any electrical generator used, log all fugitive dust complaints, and log all triggers

that initiate fugitive dust control. A copy of each of those forms is also enclosed. If you have questions regarding this Permit by Rule process, please contact Zach Pierce (208) 373-0502 or zach.pierce@deq.idaho.gov.

Sincerely,

A handwritten signature in black ink that reads "Mike Simon". The signature is written in a cursive style with a large, looping "M" and "S".

Mike Simon
